DETERMINE YOUR RING SIZE

Set this guide to 100% scale and print it on A4 paper. Use the ruler to determine the correct ring size for you.

You can place a credit or bank card on the rectangle below to confirm the accuracy of the printed dimensions. If the card fits within the rectangle, the scaling is correct.

Place your credit card
here to verify that the tool was printed
with accurate proportions.

Measure with a Ring

1. Take the ring you want to measure.

2. Lay it flat on top of the black circles.

3. Move from the smallest circle upward until the black area fills the inside of the ring.
